

**In Israel, the winter season has already begun. Rain clouds are on the horizon, and the nights are getting cold.**

**In the IDF, cold weather gear isn't standard issue; soldiers are given the barest essentials and anything else they want, they have to bring on their own.\* Not all soldiers have the means to purchase it on their own.**

**Join Standing Together as we begin purchasing cold weather clothing and gear to distribute on army bases, to ensure the soldiers can continue their mission of protecting our friends, family and holy places throughout Israel.**

**Warm a soldier's body, heart and soul with a special gift of cold weather gear.  
Click to show your support.**
